

Minis Session 2

Chess

Do you enjoy playing chess or do you want to learn how to play the game? Bring your strategy, competitive spirit, and even your own chess board! You will be paired with a new chess partner or two each week as you either learn the game or perfect your skills.

Wired!

Challenge your creativity by making a 3-D wire sculpture of an animal or a person in action. You will also have an opportunity to design and create a mobile. If time allows, you will make a sculpture in the style of Grant Wood's "Lily of the Alley."

Dancing Through the Decades

Have you heard of the Charleston or Promenade? Whether you have 2 left feet or dance all the time, this mini is for you! We are going to look at popular dances from the past and try them out.

Crochet

Ever wanted to create beautiful, handmade items? Learn the basics of crochet, a skill that you can use to make bookmarks, scarves, blankets, hats, and so much more! Crocheting is not only easy and relaxing, it creates a future opportunity for stewardship. Learn to crochet and you can share your time and talent by donating your warm creations to those in need!
